## PROFILE

FP&A professional with 2 years of experience in financial planning, variance analysis, and budgeting at a Fortune 100 company. Proven ability to build financial models, drive cost savings, and deliver executive-ready insights that support business decisions.

- **Skills:** Power BI, Tableau, SQL, Python, Microsoft Excel (VBA, Pivot Tables), Access, SAP, Azure AI
- **Core Competencies:** Financial modeling, budgeting, variance analysis, reporting, forecasting, data visualization, dashboarding, OPEX/CAPEX management, leadership & stakeholder communication

## EDUCATION

**Purdue University, Daniels School of Business**

*MS Business Analytics and Information Management – Daniels' Merit Scholarship, 3.9 GPA*

**West Lafayette, IN**

**Dec 2026**

**Lahore University of Management Sciences**

*BS Accounting and Finance – Dean's Honor List*

**Lahore, Pakistan**

**Jun 2023**

## PROFESSIONAL EXPERIENCE

**The Coca-Cola Company**

*Financial Analyst, FP&A*

**Lahore, Pakistan**

**Aug 2023 – Jul 2025**

- Developed an OPEX performance dashboard on Power BI during 2024's sales downturn, driving \$107k in cost savings
- Built time-series analyses of cost drivers and vendor spend, identifying root causes behind 3 unfavorable expense KPIs
- Spearheaded site-wide rollout of Purchase Pal, streamlining PO creation workflows & recovering 400 man-hours in 2024
- Owned CPS Pakistan's monthly overhead forecasts and variance analyses across P&L line items, yielding 96% accuracy

**PepsiCo, Kearney**

*Analytics Consultant, Industry Practicum*

**West Lafayette, IN**

**Jan 2026 – Apr 2026**

- Built Power BI dashboard on equipment performance to identify OEM, & defect drivers, unlocking 20% cost reduction
- Developed NLP model on 322K service call and technician comments, exposing 70% diagnostic mismatch
- Built predictive model scoring 15K assets, enabling proactive replacement decisions, & driving 1000+ hours saved annually

**Adamjee Insurance (AICL)**

*Corporate Finance Intern*

**Lahore, Pakistan**

**Jul 2021 - Aug 2021**

- Performed bank reconciliations on Premia and guided the intern cohort in identifying 30 deficiencies in the financial report
- Made accounting entries for 9 company divisions on Premia, enhancing accuracy of financial reporting
- Amended the Annual Report's disclosures, helping AICL achieve second rank for 2021's Best Corporate Report Award

## ACADEMIC PROJECTS

**Regime-Aware Trading in Finance | Machine Learning Research**

**Jan 2026 – Mar 2026**

- Architected 2-stage framework on Python combining neural networks & gating, improving Sharpe through exposure control.
- Tested 20+ model configurations to isolate macro signals as the main driver of regime prediction, informing strategy design
- Uncovered macro-driven gating rule ( $\tau=0.58$ ), boosting Sharpe by 63% (0.34 vs 0.21), by filtering unreliable trading signals.

**Airbnb Host Retention | Customer Analytics**

**Oct 2025 – Dec 2025**

- Led end-to-end Python churn modeling on 5,247 listings, stacking gradient-boosting models to achieve 0.825 AUC
- Designed a revenue-weighted host retention strategy targeting ~20% of 1,312 hosts using a \$1,000 break-even threshold
- Ranked 2nd in profit maximization, driving a \$1.73M portfolio-level profit uplift through data-driven targeting

**Investment Consultation | Portfolio Management**

**Aug 2025 - Oct 2025**

- Visualized efficient frontier and capital market line in Power BI to map risk-return tradeoffs across 10 asset classes
- Executed multi-asset optimization on Excel using PKR 5 million investment, achieving ideal weights in 10 assets
- Composed an IPS by demonstrating client's objectives, scope, return requirements, and eligible asset classes

**Arcade Expansion Strategy | SafeGraph & SQL**

**Aug 2025 - Oct 2025**

- Built advanced SQL pipelines to clean, join, and analyze 1M+ mobility & income records across 88 counties
- Ranked counties by visits per 10K residents, income terciles, and urbanity to surface 5 high-demand expansion targets
- Drove site strategy projecting 3x higher foot traffic, improving ROI projections by 23% on average

## LEADERSHIP, HONORS & ACTIVITIES

- Bronze, Future Edelman Impact Award at Purdue (2026): Best Industry Practicum for equipment and service optimization
- Star Performer, Finance at Coca-Cola (2024): Ensured OPEX budget control within \$5 million amidst business challenges
- LUMS Basketball Team, Vice-Captain | Shooting Guard (2022-23): Won gold in 3 tournaments including home fixtures
